

The red tinted area is your bleed. If the image on your cover goes past the trim size, this is called bleeding the image. This needs to be .125 inches.

Live Copy Area

Your copy must be centered in this area.
Please note that this area is .25 inches from the trim.

6.0"

9.0"

Spine: Spine widths vary with the number of pages that are in your book. Go to hillprintsolutions.com and under File Creation you will find our spine calculator. Just input the number of pages, select your paper and then submit. This will give you the width of your spine.
